

## Media Release

For Publication in Autumn/Winter 2005

# Patiolas

*Australia's first truly fragrant viola-pansy hybrid features the best of both species, including the heavenly scent of violets*

**Patiola** Top Cat

*Planting:* autumn/winter

*Flowers:* 3-4cm across appear

6 to 8 weeks from planting.

Abundant, early & long flowering

*Habit:* compact annual (non-stretching)

*Height:* 20cm

*Plant:* 25cm apart

*Position:* full sun, semi shade

*Soil:* well-drained

Patiolas produce masses of large flowers up to 4cm across for months at a time. Plant weather-resistant, non-stretching Patiolas in April and they'll still look, and smell, magnificent well into late spring.

Patiolas are strong performers for in massed garden displays, borders, pots and hanging baskets. Available in single-hued 'True Orange' and 'Vivid Blue', and in jazzy 'Top Cat' and 'St Clements' mixes in the Floriana **Natural Beauty** range for **R.R.P. \$4.95** from **March 2005**.
