- Ideal for busy people who want beautiful results.
- Advanced grown for faster results.
- Labels carry clear usage information, e.g. sunlover, shade.
- Cell punnets, easy to plant, less mess.
- Targets style-conscious gardener

Perfect for Pots

Perfect for Pots seedlings take the guesswork out gardening. Perfect for Pots seedling varieties are chosen specifically for their suitability for pot culture. We look for varieties that will deliver months of reliable colour to patio, courtyard and balcony planters. Each four-cell punnet includes just enough seedlings to fill a 20-25cm pot. In fact, most varieties are available *already* in flower, so there's even less waiting for the show to begin.

High proportion of low water users:-

- Melampodium 'Lemon Delight'
- Lavender 'Hidcote' and 'Munstead'
- Geraniums
- Begonia Tuberous
- Marigold 'Cinnamon', 'Vanilla'
- Petunias - spreading and upright
- Rudbeckia
- Torenia
- Verbena
- Vinca 'Sunswirl'
- Zinnia 'Mambo'

* Once established
